Kitchen passion for little ones: children's knife set from Friedr. Dick and Tanner

Friedr. Dick and Tanner – der kleine Kaufmann (the little merchant) are jointly launching a toy knife set for children – a miniature version of the popular F. DICK "4Knives" knife block, containing knives from the Red Spirit series. The highlight for every play kitchen and young hobby or professional chefs!

The toy knife set has been specially developed for children and complements every play kitchen perfectly. The high-quality set consists of four small kitchen knives made of wood, all of which are modelled on the tried-and-tested Red Spirit series from Friedr. Dick. An AJAX chef's knife, a Santoku, a small paring knife and a bread knife with a serrated edge. The knives find their safe place in a small knife block made of robust plastic – also a replica of the popular F. DICK "4Knives" knife block. The wood of the kitchen knives is of course FSC-certified.

Little chefs can let their imagination and creativity run wild and experience culinary adventures while play cooking. The set is therefore a perfect

addition to any children's kitchen and invites even the youngest to enjoy play cooking. With the miniature knife block, the children have professional equipment, just like in an adult's kitchen.
The knife set is now available online or in toy stores.

Friedr. Dick has been committed to sharpness since 1778: a success story that began in Esslingen in southern Germany with a small file-cutting workshop, which developed into a quality company with a complete product range for chefs and butchers – from a filing specialist to the epitome of truly good knives. Tough quality criteria and high design standards characterise the traditional professional brand. Every Friedr. Dick knife is made of the highest quality steel and impresses with perfectly balanced blades as well as ergonomically shaped handles for perfect cutting ability. The company's long tradition and experience in manufacturing products for professionals have enabled it to continuously develop innovative new products.
