Magneto Steel
– keeps knives sharp

Sharpening made easy with the Magneto Steel:

Draw the knife with light pressure through the rods. The knife will be attracted by the magnets to one side of the slot to achieve the perfect angle.

Draw the blade through a few times, and you will obtain the ideal result of a razor sharp edge with an optimal preset angle.

F. DICK knife series:

- **ErgoGrip**
  Complete knife series
- **MasterGrip**
  Special Boning knife
- **SteriGrip**
  Antibacterial knife series
- **ExpertGrip**
  Special tool for professionals

As leading knife manufacturer Friedr. Dick is certainly competent regarding resharpening. Friedr. Dick offers individual solutions e.g. for butchers and the meat processing industry:

We will be pleased to provide detailed information about our vast range of grinding machines.
